# — START INVESTING CORPORATE VALUE'S

INVESTMENT GRADE VALUE (IGV)  
DIVVY VALUE (DV)

All these values depend on corporate development. IG Value is responsible for the present value and is also responsible for your total return and commission. The DIVVY Value is responsible for calculating your total profit. Both prices are variable and it varies from time to time. Before starting, the investment checks all the values properly, as these values are fixed for a time period of one year after the purchase plan or product.

## TODAY IIFT VALUE'S

IG VALUE : ▲50.00+

DV VALUE : ▼06.00+

\*All values are depends on the corporate growth...
